

NEWMATIC ACCELERATES THE ADAPTATION OF THE FULLY AUTOMATED LAUNDRY SYSTEM TECHNOLOGY ACROSS THE REGION WITH GIRBAU

With 25 years of experience, reliability, and excellence, **NEWMATIC** provides the finest laundry equipment solutions for virtually every market and a segment of the laundry business across the region with its Fully Automated Laundry System technology. By exploring the latest available technology in the industry and partnering with leading, worldwide laundry equipment manufacturers,

NEWMATIC's Girbau Fully Automated Laundry System is the most efficient design of tunnel washers in the market, providing energy efficient washing, resulting in less time, and a significant increase in performance output.

The System's unique design consisting of less complex components and an integrated monobloc assembly ensures maximum flexibility in repairs as well as maintenance. Equally impressive, is the

System's integrated automated bag rail, which allows linen to be selected, stored and loaded into one or more of the batch washers, manage the size of the loads, and sort for more efficient distribution of laundry batches using ergonomic stations. The process also includes an empty bag return, and

“ The Fully Automated Laundry System is the most efficient design of tunnel washers in the market. ”

NEWMATIC's offering ensures a higher profit and greater efficiency with high-quality laundry solutions for its customers.

NEWMATIC is the first company to deliver the fully automated laundry system technology to the region, leading the design, construction, and management of its premier installation with the Golden Sands Laundry in Dubai Investment Park district, set for completion in the last quarter of 2017.

a track control system that provides an evaluation of the production data such as a number of loads, total weight, customer details, item type, and washing program, among many other integrated features.

Established in the United Arab Emirates, **NEWMATIC** is the leading industrial laundry equipment and service company that is providing advanced performance-driven solutions for its partners across the Middle East. ●
